

Americans Advance Ten Miles; Capture Over 10,000 Prisoners

FOUR CANDIDATES FOR ALDERMEN ARE PLACED IN FIELD

SIVLEY, CHENAULT, BROCK AND DAVIDSON NOMINATED LAST NIGHT.

Four additional aldermanic candidates were put in the field at the mass meetings held last night in three Albany wards.

The new candidates are:
First Ward—Dr. F. L. Chenault, S. D. Brock.

Second Ward—W. E. Sivley.
Third Ward—W. V. Davidson.

The candidates who were placed in nomination take the places of those who were compelled to withdraw because of the recent order of National Railway Director McAdoo barring railroad employees from holding office.

The mass meeting in the second ward was called to order by Judge F. M. Hamilton, and Herman L. Turner was elected chairman and Chas. Sittason secretary. Only one nomination was made, that of Mr. Sivley. He is the third candidate from this ward, with two to elect.

Chenault and Brock.
The West Albany mass meeting held at the Seventh Avenue School building last night for the purpose of naming candidates for the City Council to fill the vacancies caused by the resignations of those first nominated, organized by electing Geo. O. Chenault as chairman and J. E. Blair as secretary.

The following were then placed in nomination for alderman, with two to be elected: J. J. Patterson, Sam D. Brock, Rev. A. H. Manly, Dr. Frank Chenault and Taylor Sewell. When it appeared that S. D. Brock and Dr. Frank Chenault had received the highest number of votes of any two of the five candidates, they were declared the nominees of the first ward as aldermen to sit in the new City Council to be elected next Monday.

Though all the city wards suffered the loss of some of their original candidates for aldermen, on account of the ruling of Director General McAdoo "exempting" all national railway employees from holding political office, West Albany was the only ward which suffered the loss of all of its candidates.

U. S. BIRDMEN HAD AIR CONTROL IN LATEST DRIVE

(International News Service)

Washington, Sept. 13.—American aviators gained the supremacy in the air in the fighting between the Meuse and the Moselle which is still proceeding. New squadrons, according to dispatches, especially organized for work with the first field army, covered themselves with glory. They were all the products of American training fields and it was by their aid that the American artillery was able to silence the German guns.

FLORIDA CONCERN TO ERECT GRAIN MILL AND ELEVATOR IN DECATUR

WORK TO BEGIN AT ONCE AND TO BE COMPLETED BY SEPTEMBER 20.

The Brandon Mill & Elevator Company of Marianna, Fla., will erect a grain mill and elevator on a lot on Water Street, Decatur, on the river front, according to announcement today. W. S. Brandon, senior member of the firm, has wired Mayor or Nelson that he will reach Decatur Monday morning and that work will begin at once. Permission to erect the building has been obtained from the federal government.

The plant will cost several thousands of dollars, but its exact dimensions will not be made known until the arrival of Mr. Brandon. One of the features of the mill will be an endless chain bucket system for unloading vessels, and it is expected that a good portion of the

grain handled will be shipped in on river packets and barges.

The deal has been pending for some time and has been held up only by the difficulty in obtaining 500 sacks of cement needed in putting in the foundation. This cement was secured through the activities of John D. Wyker & Son, and with this impediment removed the construction work will be hurried, so that the mill will be ready for operation early in the fall.

Decatur is considered an ideal location for an industry of this kind, owing to its splendid rail and water transportation facilities and its proximity to the grain fields as well as to a large consuming territory. The erection of the mill is also expected to prove an incentive to North Alabama farmers to plant large acreage of wheat this year as part of the "win the war" program.

DEBS CONVICTED ON THREE COUNTS

FACES TWENTY YEAR SENTENCE AND \$10,000 FINE.

Cleveland, O., Sept. 13.—Eugene V. Debs, charged with violating the espionage act, was found guilty by a federal jury Thursday.

Of the original ten counts of the indictment but four remained when the jury retired to consider the evidence. The verdict found him guilty of three; not guilty of one. He was found guilty of attempting to incite insubordination, disloyalty, etc., in the military and naval forces; attempting to obstruct recruiting and uttering language tending to incite, provoke and encourage resistance to the United States and to promote the cause of the enemy.

The count on which he was adjudged innocent charged that he opposed the cause of the United States.

The maximum penalty is twenty years imprisonment and a fine of \$10,000. Judge Westenhaver stated he would hear counsel on motion for a new trial next Saturday. Debs until then, will remain at liberty, under the trial bond.

Another High Hun Has Peace Plans Made in Germany

(International News Service)

London, Sept. 13.—Germany is ready to restore all territorial possessions taken during the war except in the east, provided that all territory held by Germany and her allies is restored, Friedrich Von Payer, the vice chancellor, asserted in recent speech at Stuttgart, late dispatches say.

In the east we have peace whether it pleases our western neighbors or not," said the vice chancellor. "Other territorial possessions which existed before the war can everywhere be restored."

ONE-ARMED MAN WORKING AT PLOW LOSES ONE LEG

(International News Service)
St. Louis, Mo., Sept. 13.—Fortune seems to frown on Louis A. Matoushek, who has a wife and three children. One-armed, he has been trying to support his family by driving a team beside a plow of a local construction company. Recently the harness on one of his horses broke. He was struck by a single tree, and his leg broken. It had to be amputated.

His body was scattered in small bits over a wide radius of his farm.

VICTORIOUS TROOPS OF GEN. PERSHING PASS ON TOWARDS METZ

TWO HUN DIVISIONS CAUGHT IN TRAP AND MAY SOON SURRENDER

ENEMY BURNS TOWNS BEHIND LINES

Indications Are That Big Withdrawal May Result From American Blow

(International News Service)

London, Sept. 13.—Official admission was made by the Berlin war office today that the Germans have evacuated the St. Mihiel salient where the Americans began their offensive yesterday. This emphasized the magnitude of the American victory. The German war office statement said that the Germans on the St. Mihiel front had fallen back to new prepared lines "without enemy interference." Admission was made in the statement that Austrians were used by the Germans in the Lorraine fighting. The German war office report makes it certain that the St. Mihiel salient is now in allied hands.

(International News Service)

With the American Army on the Lorraine Front, Sept. 12.—(Midnight.)—Pagny-Sur-Moselle, only slightly more than 10 miles from the great German fortress of Metz, is in flames. Pagny-Sur-Moselle is very close to the German frontier.

(International News Service)

With the American Army on the Lorraine Front, Sept. 13.—(Noon.)—A heavy counter attack was delivered against the right wing of the new American front east of St. Mihiel this morning. The assault was preceded by a violent bombardment of one hour, but was completely repulsed.

The German grip on the Meuse river south of Verdun has apparently been broken by the brilliant and dashing offensive of the Americans which opened yesterday along the St. Mihiel salient, and it is not improbable that if the advance continues this week may see the Americans in position to bombard the outer forts of Metz with their long range guns.

The whole German salient in the Woivre district has been put in peril and two German divisions have been caught in a trap from which they will find it hard to extricate themselves.

The Americans advanced to a maximum depth of ten miles and extended their lines elsewhere from three to eight miles. A core or more of villages have been captured and it is likely that by night the number of prisoners in the hands of Gen. Pershing's army will be far in excess of 10,000.

Fires were seen and explosions heard behind the German lines, and Pagny, which is on the German border, is in flames. The Germans are destroying vast quantities of war material.

The victory has given the United States a glorious thrill and the extent of the triumph is not yet in sight, as reports from the scene of the struggle today said that the stream of German prisoners was increasing steadily.

All branches of American arms distinguished themselves in the fighting. Some French forces took part in the battle but the Americans were in the numerical superiority.

With the British army in France, Sept. 13.—After beating off counter attacks, British troops today are advancing toward Cambrai near Mouevres.

(International News Service)

London, Sept. 13.—British troops advanced at three points last night, the British war office announced. Keancourt was captured from the Germans. The British gained ground on the Holnob wood line, also progress was made on the Flanders front. More than 1,000 prisoners were captured.

(International News Service)

Paris, Sept. 13.—"The American attack on the St. Mihiel front is continuing with success," the French war office announced today. The French have made further progress in Picardy and captured prisoners in raids near Verdun.

(International News Service)

London, Sept. 13.—(1 p. m.)—American troops in their offensive southeast of Verdun yesterday captured 9,500 prisoners and 60 guns, it was learned this afternoon. West of St. Mihiel, where the country was most difficult to advance over, the Americans (Continued on page two.)

LET THE LAW TAKE ITS COURSE.

The action of Judge Brickell in calling a special session of the grand jury to probe the killing of Patrolman F. A. Bass of the Decatur police force, removes any excuse that might have existed for the lynching of the negro who is charged with the crime. It was a wholesome move, in line with the recent statement by President Wilson pleading for better law observance, one that will redound to the good of the community and of the state. City and county officials who had urged a quick trial for the assassin of the popular officer are to be commended for their calm judgment, shown in the face of provocative circumstances.

Lynching is rapidly passing into disrepute and is a form of vengeance that is not sanctioned by sober thought or a high national consciousness. The summary execution of a criminal without trial and by superior numbers is in itself a violation of law. Such disregard of the statutes is well calculated to produce a disregard for all law. The effects are baneful. Even from the sordid commercial standpoint, a lynching is not an asset of which any town or community may boast.

In condemning the lynching of a pro-German citizen by a northern mob, President Wilson declared that this was nothing less than the Prussian standard of "lawless passion, which we are at this very moment fighting." The words of the executive should at this crucial hour of the nation's history carry especial force.

When courts are prompt to act, there is no longer reason to claim that justice will be outraged or that a criminal who has committed a heinous crime shall escape the full penalty.

CHEMIST WINS LASTING GRATITUDE

"I tried several doctors and all kinds of medicine, and had about given up all hope of getting better. I did not think it possible that any medicine could be so wonderful in its effect as May's Wonderful Remedy has proven in my case. You sure have won my lasting gratitude. I could not work at all and had constant pain in my stomach before taking your medicine." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded.

Stork and Cupid Cunning Plotters

Many a New Home will Have a Little Sunbeam to Brighten it

Cupid and the stork are held up to veneration; they are rated as cunning plotters to herald the coming of the little sunbeam to gladden the hearts and brighten the homes of a host of happy families. There is a most remarkable preparation, known as Mother's Friend, which has been used by women for over half a century before the arrival of the stork. This is a penetrating external application for the abdomen and breast. By daily use throughout the waiting months, strain and tension is relieved. The muscles are made elastic and pliable so that when baby comes they expand with ease and the pain and danger of the crisis is naturally less. Then, too, the nerves are not torn and drawn with that usual wrenching strain, and many distresses, such as nervousness, nausea, bearing down and stretching pains, are among the discomforts and debilitating experiences women who have used Mother's Friend say they have entirely escaped by the application of this time-honored remedy. Thousands of women have used Mother's Friend and know from experience that it is one of the greatest contributions to healthy, happy motherhood. Write to the Bradford Regulator Co., "Mother's Friend" Dept., Albany, Ala., for their "Mother's Friend" book. There is wealth of instruction and comfort to be derived from reading this little book. It is plainly written and will tell you exactly what to know. Get a bottle of Mother's Friend from the drug store today. It is thirty years old and still the same.

Humanity's War Debt to American the Dairy Cow

(By M. D. Munn, St. Paul, Minn. Vice-president National Dairy Show.)
Without the dairy cow, we cannot raise children.
Without the dairy cow, we cannot exist as a nation.
North America is the principal territory at the present time where the dairy industry has not been crippled to the point of annihilation.

Do you know that there are great areas in Europe where a man cannot buy a glass of milk for any amount of money? Every drop they have of the precious fluid is saved for the children. And there are areas of devastated Belgium and elsewhere that the mortality among children is 90%. Think of it! The dairy industry of the United States has been threatened during the past year by a number of serious factors, among them the high cost of feed and the lack of farm labor.

There are, in round numbers, in this country, 23,000,000 dairy cows and these produce 89,000,000,000 pounds of milk. Large as this amount may appear, it is not sufficient for one full glass per capita for the population of this country per day, when other dairy products are taken out of the total supply. Consider the large amounts of milk necessary for child feeding and ask yourself whether on this extremely narrow margin, the dairy industry of the United States can be said to be safe.

Last year, over 19% of all food eaten in this country came from the dairy cow. In addition to this, the dairy cow is almost the sole support of soil fertility on the average farm. Agriculture would almost disappear from the United States within five years if the dairy industry were annihilated. At least, agriculture would be so seriously crippled that anything like commercial prosperity anywhere in the land would be out of the question.

Let us assist you in buying the dairy cows.

ONE-LEGGED NEWSBOY IS SUCCESS AT RECRUITING

(International News Service)
St. Louis, Mo., Sept. 13.—E. S. Phillips, a newsboy of this city, has one leg and one heart—both for the United States. His heart was strong enough to go to the army—but his one-leggedness has kept him out. Phillips, undaunted, turned himself to what he thought was the best way he could help, and has sent 756 legs into the army, according to recruiting officers here, who say he induced 378 eligibles to join the Marine Corps.

LOVE FOR ARMLESS MAN BRINGS WOMAN'S ARREST

(International News Service)
St. Louis, Mo., Sept. 13.—Because she loved Charles Roach, an armless man, Mrs. Teenie Hunter, according to her story to authorities here, turned over to him \$200 worth of Liberty Bonds and \$100 worth of War Savings Stamps which she found upon the floor where she was employed. Exposure came when Roach attempted to sell them at a discount.

LONG SENTENCES FOR TWO IDLE GIRLS GET RESULTS

(International News Service)
Atlanta, Ga., Sept. 13.—"You can't make us work," declared Nellie Atkins and Ruth Warf, both seventeen years old, sentenced to work at the Stockade. And they punctuated their remarks by breaking out window panes. The girls again faced the Recorder.

"Thirty days more," said Judge Johnson. "It is just possible that we can't make you work, but we can keep renewing your sentence." The girls thought it over. They are now industriously occupied in the Stockade's laundry.

READ THESE STARTLING REPORTS

FROM QUAKER HERB EXTRACT AND QUAKER KIDNEY PILLS IN A FEW DAYS TIME.

There are hundreds of so-called stomach and kidney remedies on the market. Most of them, affording only a temporary relief, but the people of Albany and Decatur have come to realize that the Quaker Herb Extract and other Quaker Remedies are not temporary remedies, but positive and permanent cures. Hundreds of people in this city today will testify to the wonderful merits of the Quaker Remedies which have been advertised and sold at Thompson's and the Owl Drug Stores.

Mr. Thomas Thorpe, who resides at the corner of Montgomery avenue and Tassie Street, who is a carpenter and has suffered with stomach trouble, indigestion, lump of lead feeling in the pit of the stomach, food would sour, causing bloating, belching, says sometimes I would even be nauseated, bowels constipated, and I was generally in a weak and run-down condition. I have taken many different so-called stomach remedies during all these years of suffering, but one bottle of Quaker Herb Extract has given me more relief and benefit than anything I have ever taken. My wife was also in a weak and run-down condition. She has taken one bottle of the Quaker Herb Extract and sees a wonderful improvement.

A full line of the Quaker Remedies are handled by Thompson's Drug Store in Albany, Ala., and at the Owl Drug Store in Decatur, Ala. So start your treatment at once and get well.

AMERICANS ADVANCE TEN MILES

(Continued from Page One)
cans encountered strong resistance, but despite this they advanced three miles over a front of 12 miles. Two German divisions in that sector are in danger of being cut off.

FRENCH ARE LED BY AMERICAN OFFICERS

(International News Service)
With the American Army on the Lorraine Front, Sept. 12.—(Night.)—The battle which opened with the big American drive between the Meuse and Moselle rivers this morning still continues. The French went into the attack on our left flank and center and are still advancing. The French are under the direction of American officers. Late in the afternoon a thunderstorm blew up and interfered with operations to some extent.

(International News Service)
London, Sept. 13.—The German salient at St. Mihiel has been doomed by the American offensive. Two German divisions are trapped in the narrow angle between the Meuse and Moselle rivers and are menaced with capture or annihilation. Americans have driven forward to a maximum depth of 10 miles and the number of prisoners is unofficially estimated at more than 9,000. It is reported that Remy wood, Thiaucourt wood, Vigneulles and Heudicourt have all been taken. If these places have really been captured, it means that the neck of the German wedge southeast of Verdun has been squeezed to a depth of less than six miles and the Germans will have a difficult time in withdrawing their men from the salient. The deepest American advance was made in the sector of Vigneulles. The number of prisoners taken by the Americans is increasing hourly. In the zones of Mattonville and Vampoitoux, the Germans are blowing up munition dumps. Both places are outside the pocket created by the Americans and indicate that the Germans plan a big retreat. Commartin has been captured by Gen. Pershing's victorious troops. At Beney the Germans tried to stem the American rush but were hurled back and their resistance completely crushed by the bayonets of the American doughboys.

(International News Service)
London, Sept. 13.—The Americans advanced a maximum of 10 miles in their first big offensive, according to information received here this afternoon. The attack was delivered over a front of 14 miles east of St. Mihiel, making a general advance of eight miles. The battle neck of the salient has been narrowed to six miles by the American victory, which means that the battle line east of the Meuse has been straightened and shortened.

(International News Service)
London, Sept. 13.—British troops on the Flanders front have captured Pont d'Nieppe near the Belgian border, according to information from the battle front.

(International News Service)
London, Sept. 13.—A dispatch from the battle front this afternoon said that American troops were advancing so rapidly that the headquarters staff has been finding it difficult to keep up with them.

With the American Army, Sept. 13.—St. Mihiel early today was reported to have been captured by American and French troops.

MONT SEC, KEY POSITION, TAKEN BY FRENCH

(International News Service)
With the American Army on the Lorraine Front, Sept. 12.—(Midnight.)—French troops fighting with the Americans in the offensive south of Verdun have captured Mont Sec. The high ground in the Mont Sec region is the key to the German front in that sector. The total German prisoners taken is now put at about 10,000. The enemy has withdrawn from all the northern part of his line from St. Mihiel to Weinville, and the Germans have been thrown back from the Meuse river everywhere. All of the American objectives were captured before noon. The Americans now hold Thiaucourt wood, Monsard wood, Boulonville wood, Pannes and Rouly wood. One unit of Americans captured a whole German battery of 6-inch guns. The French have captured Combres and St. Remy. The Germans are rushing up reinforcements as fast as they can.

Batteries of light calibre guns had been moved up close to (Continued on page three.)

KINGS HAVING NO LUCK, NOT EVEN THIS GYPSY

(International News Service)
Cleveland, O., Sept. 13.—It's hard times for the kings. Constantine got let out, Nicholas was given the gate and then lost his head, Bulgaria is looking for its lost idol, and now Cleveland mourns its only king. The head man, named King, of a band of gypsies, this week got a job and passed up his duties watching the women of the camp do the work. The gypsy leader was brought into court on a loading charge and was told to get a job or the state would give him one behind bars. He took the hunch from the judge and has started real work in a munitions factory. His forsaken crown is vacant, as the others in the camp do not care for the chance of having to follow in his footsteps.

We are endeavoring to help our Government WIN THE WAR by purchasing Liberty Bonds, losing the Government on short time Treasury Certificates and the sale of War Savings Stamps. At the same time we are taking care of our customers for their legitimate needs. The unexcelled BANKING SERVICE we are rendering is reflected to some extent in the substantial increase in DEPOSITS as shown by the above comparison. Accounts of farmers, merchants and individuals are invited.

The Decatur Hosiery Mills are now a permanently established institution which have the best interests of the Twin Cities at heart. We pay the highest piece work prices, some of our girls making from \$10 to \$15 per week. We will have openings from time to time for bright young ladies who are anxious to become skilled in a good paying and high-class line of work.

FARMERS AND THE DRAFT.

SPECIAL CARE TO BE TAKEN TO DEFER AGRICULTURAL WORKERS.

Washington, D. C., Sept. 13.—Under the rules of the war department for executing the new draft law, special provision is made for informing the district boards in regard to farm labor requirements in order that necessary food production may be maintained, says a statement issued by the department of agriculture. The statement continues:

In the new draft the district boards are charged with the duty of putting into deferred classes those persons who are more likely to further the war by remaining in civilian occupations than by entering the army. Accordingly, three advisers are to be selected for each district board—one for agriculture, one for labor, and one for other occupations. The agricultural adviser will be appointed by the board upon the recommendation of the secretary of agriculture. The advisers are not members of the board but may, when invited, attend its meetings.

How Agricultural Adviser Will Aid

The duties of the agricultural adviser will be to furnish to the board facts relative to farm labor requirements, not only of his own district, but of the whole country. He should be the repository of all facts having relation to the deferment of agricultural workers, whether these be necessary farm laborers, managers or operators. He will be expected to advise the district boards as to a shortage of surplus of necessary farm workers for any given district, as well as for the entire nation. Such information will be supplied to the advisers by the department of agriculture. This will make it possible to have necessary workers transferred from districts in which they may not be necessary to other districts in which they are sorely needed.

The adviser may also concern himself with individual cases that come before the district board. He will have the right, under certain conditions, to examine the questionnaires and other records in the files of the local board for the purpose of ascertaining whether persons entitled to deferred classification have actually claimed it. In case he finds the names of such registrants he may file for them a claim for deferred classification with the district board, which in turn may require the local board to certify the questionnaire and record of any such registrants for consideration. Reasonable time will be given for the purpose of obtaining

information and supplying the affidavits required. If a local board determines to consider a case for deferred classification because a registrant is engaged in a necessary occupation, notwithstanding no claim for deferred classification on that ground has been made, it shall endorse the recommendation on the questionnaire of the registrant and forward it to the district board having jurisdiction. The district board will thereupon consider the case and proceed to classify the registrant, notwithstanding the fact that no claim for deferred classification by or in respect of the registrant has been made.

Claims in Behalf of Necessary Employees.

A further duty with which the adviser is charged is to confer with employers of necessary farm workers, and to instruct them as to their right under the regulations to file a claim for deferred classification in respect of any registrant who has failed or refused to file a claim for deferred classification in his own behalf. This, in the opinion of the war department, is a very important matter. The apparent injustice of placing many registrants in Class 1 is often due to the fact that employers have failed to make claims for deferred classification on behalf of necessary workers. It is to avoid a repetition of this trouble that farmers should see that all of their necessary employees, whether sons or other laborers, of the draft age have made for them just claims for deferred classification.

One important explanation is made in the new Selective Service Regulations in connection with the expression "skilled farm laborer." The questionnaire provides deferred classification for the "necessary skilled farm laborer in necessary agricultural enterprise." The new regulations provide that in Class II shall be placed any registrant found to be engaged in a "necessary" agricultural enterprise, and found to be necessary to such enterprise in the capacity of a farm laborer—"especially fitted for the work in which he is engaged." This quoted phrase constitutes an explanation of what is meant by "skilled" as applied to farm laborer. The expression will make easier the determination of the status of many registrants.

War Service in Right Place. The purpose in the appointing of

advisers is to place men where they can do most to help win the war. These advisers will be able to help greatly the district boards to keep in agriculture the necessary workers. These workers, whatever may be their inclination to enter military service, should stand ready to serve in any capacity in which they can contribute most toward a speedy ending of the war. In order that this may be done a frank statement should, in each case, be made to the boards. It is believed that it will frequently require as much courage on the part of many men to remain in their civilian occupations as to waive deferment.

This effort to keep men in industry, rather than to send them to the camps and the trenches, should not be abused so as to permit the slack or to escape military duty. The necessities for raising an army are paramount. Every man that can be spared will be needed and needed badly to bring the enemy to his senses. The adviser should be assisted in every possible way by every legitimate agricultural interest to find the men that can be spared for military duty, but also to keep those that are essential to the maintenance of a proper food supply.

"MEANEST MAN" TRICKS

HIS WIFE INTO DIVORCE

Atlanta, Ga., Sept. 12.—Another "meanest man" has bobbed up. According to Mrs. Ida D. Falcovitz her husband had divorced papers served on her, telling her they were an insurance policy on his life in her favor. Mrs. Falcovitz can hardly speak English and cannot read it at all. She had treasured the papers

happily until she found their import. Then she asked her husband. He vigorously denied he had taken any steps toward a divorce. But she investigated further and, learning the truth, instituted a cross suit for divorce and alimony. Falcovitz is a telegraph operator.

REGIMENTAL SODA FACTORY

To help keep up the health of the British troops in Mesopotamia during the hot months each man received a daily ration of two sodas. This photograph shows one of the regimental soda "factories."

If You Want To Feel Better Tomorrow TRY THIS TONIGHT

You can wake up every morning feeling as fit as the proverbial fiddle. You can eat a hearty breakfast and go about your daily tasks with a vim and vigor long unknown. You can call back that old-time "Pep" and enjoyment of life, and feel like a truly different person. Try this tonight and see.

Go to Dillehay Brothers, or any other good drug store, and ask for a fifty-cent package of 333 Liver Tonic, and use it as directed for constipation and sluggish liver. It will expel the dangerous and sickening poisons from your body; it will tone up and strengthen liver, stomach and bowels so that they work in perfect harmony. Then you'll enjoy the good health that should be yours.

333 Liver Tonic is composed of the purest, laxative elements of fruits and herbs, scientifically combined with Pepsin. It is pleasant to take, pleasant in action, and never gripes or sickens. You don't have to lose time from your work while taking it.

Don't suffer a day longer. Ask for genuine 333 Liver Tonic, and commence using it this very night. It is guaranteed to satisfy you or your money cheerfully refunded.

DIRECT ANCESTOR OF HEN

From the Jungle Fowl Are Descended the Feathered Creatures of the Barnyard of Today.

Although there were no houses within half a mile of the camp, we were surprised on our first night to hear cocks crowing in the jungle (Yunnan province, tropical China), Roy Chapman Andrews writes in Harper's Magazine. The note was like that of the ordinary barnyard fowl, except that it ended somewhat more abruptly. The next morning we discovered Chautauque and all his harem in a deserted rice field, and he flew toward the jungle in a flash of red and gold.

I dropped him and one of his hens with a right and left of "sixes" and found that they were jungle fowl (Gallus gallus) in full plumage. The cock was a splendid bird. The long neck feathers (hackles) spread over his back and wings like a shimmering golden mantle but were hardly more beautiful than the black of his under parts and green glossed tail. Picture to yourself a "black-breasted red game cock," and you will have him in all his glory except that his tail is drooping and he is more pheasantlike in his general bearing. The female was a trim little bird, with a lilac sheen to her brown feathers, and looked exactly like a well-kept "game bantam" hen.

The jungle fowl is the direct ancestor of our barnyard hens and roosters, which were probably first domesticated in Burma and adjacent countries long before the dawn of authentic history. According to tradition, the Chinese received their poultry from the West about 1400 B. C., and they are figured in Babylon cylinders between the sixth and seventh centuries B. C. Although they were probably introduced in Greece through Persia, there is no direct evidence as to how and when they reached Europe.

BUILT FOR SHALLOW WATER

Peculiar Marine Institution on New England Coast Was Known in 1842 as the Camel.

In the year 1842 a queer marine institution made its appearance in Nantucket and bore the name of camel. These camels were really huge floating dry docks for carrying ships over the bar, where the depth of water had been gradually decreasing since 1830.

Being flat-bottomed the camels could float in water very much shallower than a loaded ship required. They were like two long, large boxes floating side by side and held together at the ends by large iron chains.

The outer sides were almost straight up and down, but the inner sides were curved, making when the two sections were drawn together, an interior basin just the shape of the bottom of a ship.

The plan was for the camels to be separated far enough to allow the ships to be hauled into the basin between the two sections, then to be drawn and held fastened together by the chains, holding the ship between them, so that the camels and the ship could then be towed over the shallow places in the channel to the wharf.

Cherish Your Friends.

Have you a good friend? Of course, you have, every one has friends, but every one does not hold the friendships they make. Friendship is too rare and sacred a treasure lightly to be thrown away. And yet many people are not careful to retain their friends. Some lose them through inattention, failing to maintain those little amenities, courtesies and kindnesses which cost so little, and yet are hooks of steel to grapple and hold our friends. Some drop old friends for new ones. Some take offense easily at imagined slights or neglects and ruthlessly cut the most sacred ties. Some become impatient of little faults, and discard even truest friendships. Some are incapable of any deep or permanent affection, and fly from friendship to friendship like birds from bough to bough, but make no nest for their hearts in any. There are a great many ways of losing friends. But when we have once taken them into our lives we should cherish them as rarest jewels. If slights are given, let them be overlooked. If misunderstandings arise, let them be quickly set right.

How Language Grows.

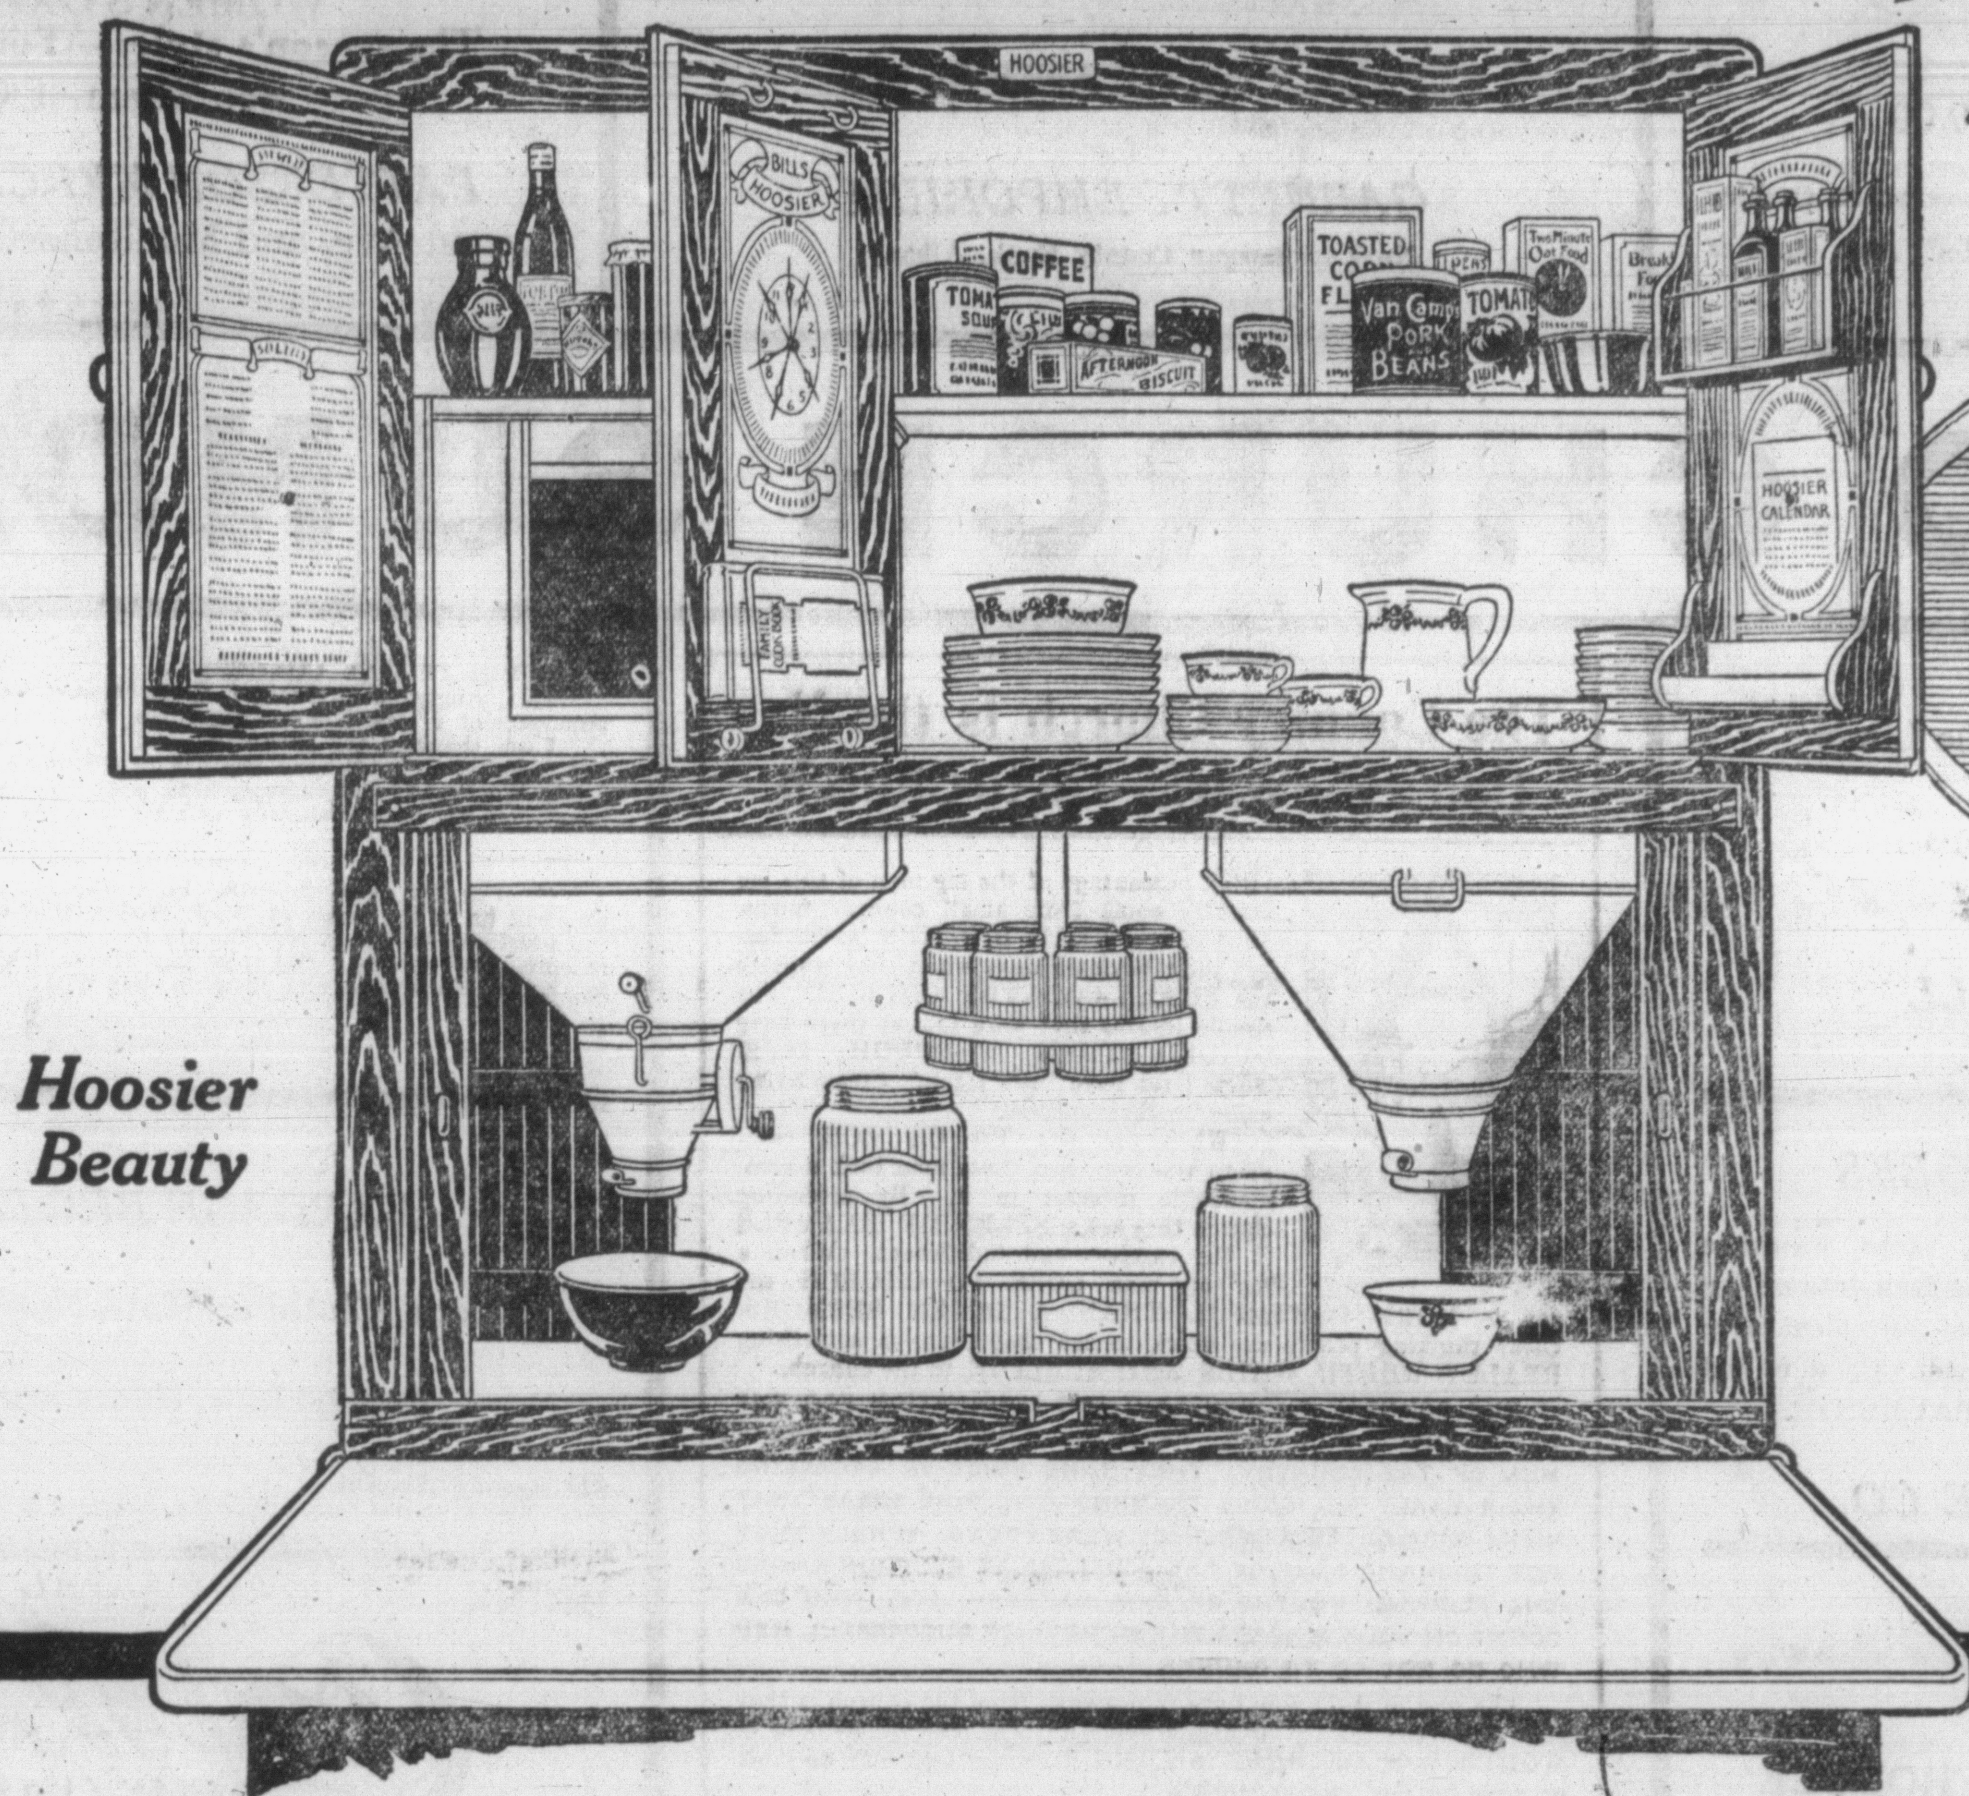

"Cad" and "fad" were at first only localisms, struggling for existence and getting slowly into use sporadically in England, until at last they achieved a peaceful penetration into the United States; then they ceased to be mere Britishisms; they won recognition into standard English. A like fate has befallen "boss" and "boom," the first a localism of New York (descended from the days when the Empire city was New Amsterdam), and the second spontaneous creation of the lumber camps of Michigan. In time these two words were in common use all over the United States; they were then merely Americanisms; and after a while they made their way into the British empire, until now they bid fair to be lifted into standard English.

Best Method of Memorizing.

In committing a text to memory by consecutive readings better results can be obtained by allowing a fair period of time between readings. If a text be read a number of times on a given day, and another the same number of times on consecutive days, much more of the latter will have been memorized.

The Hoosier Answers Not Only Some of Your Needs

—But All!

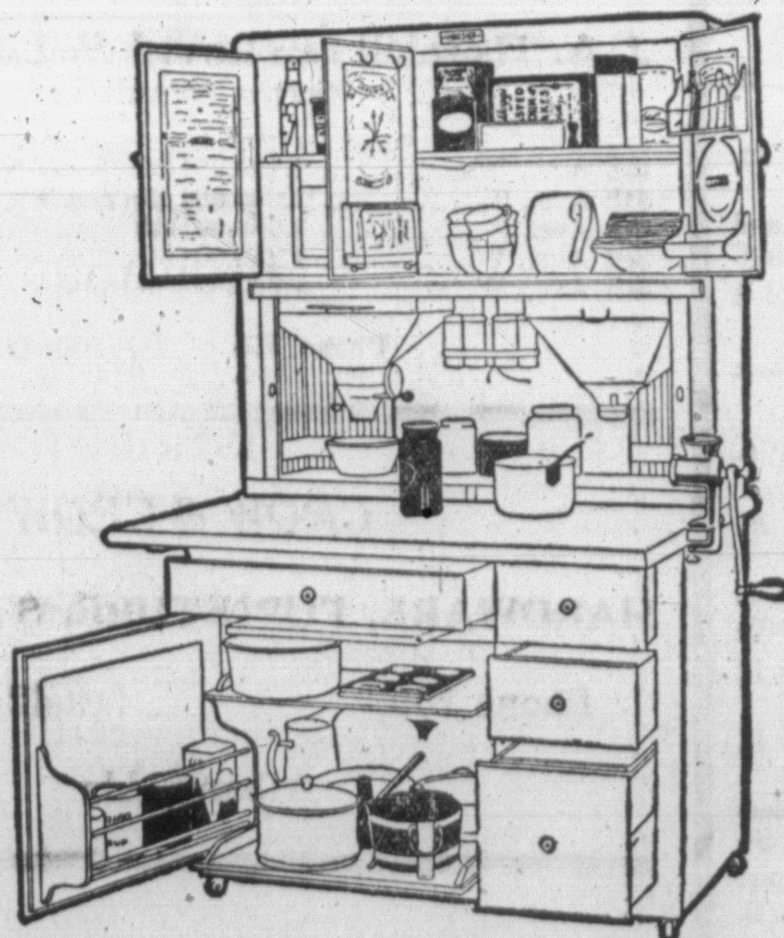

**Hoosier
Beauty**

THE government intended more time for all when it set the clocks ahead. But what is the good of that extra hour if you work just as long and just as hard in your kitchen? The Hoosier Cabinet has saved extra hours for more than 1,000,000 women. Join this delighted army of American Housewives.

The Kitchen Cabinet That Science Built You

Tested In a Million Kitchens

The Vital Section Is Scientifically Arranged

The Partitionless Cupboard gives a third more work-space and avoids clutter.

Hoosier's Glass Front Flour Bin always tells how much flour you have on hand. No bin more easily filled—none other opens in front for cleaning.

Hoosier's Shaker Flour Sifter shakes out flour light and fluffy. 4 times faster than sifters that grind.

Revolving Rack of Seven Glass Jars keeps contents air-tight and germ-proof.

Two-Way Sugar Bin holds twice the average amount.

Scientific Arrangement—most used articles nearest at hand.

HOOSIER BEAUTY is the culmination of the labor-saving experience in more than a million kitchens where Hoosier Cabinets are in daily use. In large and small kitchens; in homes, apartments, cooking schools and domestic science laboratories. So Hoosier Beauty today is the highest development in labor-saving kitchen equipment. Year by year, its convenience has been increased.

And remember this—convenience depends upon all parts being co-related. One awkward feature can throw the whole arrangement out of gear. That's why you find no partitions whatever in Hoosier's work-space above the sliding table top. Partitions here would only cause clutter.

Hoosier Beauty is also the roomiest cabinet we know, hence saves the greatest amount of steps. It saves the greatest amount of work because its scientific arrangement puts the most used articles nearest at hand.

HOOOSIER KITCHEN CABINET

The Old Way was to be a slave to the kitchen, and wear one's life out in a clutter of work.

The New Way is to sit down comfortably at your work with all utensils and supplies within arm's reach.

The maker has authorized us to sell the Hoosier Beauty on easy terms and with it to give you this unconditional warrant—"Your money back if you are not delighted." It would not be possible to make this open offer unless the Hoosier excelled in beauty, convenience and construction.

So don't make the mistake of buying any cabinet until you have come to this store and have seen what science has built you. See this 20-year development. It contains no faulty notions. See every feature that is tested and approved by the Council of Kitchen Scientists, composed of eight noted women.

You need the Hoosier just as much as any man needs a typewriter, office desk, work bench or tractor in the field. You need the hours it will save you for Red Cross work, knitting, and other war service—your country needs them.

And measured by present standards of prices, Hoosier was never a greater bargain than now.

Later on, there may be a shortage due to freight embargoes as happened last spring. Don't court disappointment by waiting. Come at once. We'll put the Hoosier in your kitchen for a small first payment—balance as convenient.

The Country Church Is the Nation's Bulwark. Go to Church.

LARGE percentage of the big men of this big country come from small country towns. Most of the REAL BIG MEN never forget their boyhood days when they went to the SMALL COUNTRY CHURCH. The simple lessons that were taught there have GUIDED THEM THROUGH LIFE. Their lives have been clean. Clean living made for their success.

When the GO TO CHURCH campaign was launched these men took a commendable interest in it. By attending church they set a SPLENDID EXAMPLE to the careless and indifferent. When a real big man GOES TO CHURCH the act is MORE POWERFUL THAN A DOZEN SERMONS. Clear thinking people are quick to see that there is something REALLY WORTH WHILE AND SUBLIME in the church.

THE COUNTRY CHURCH LAID THE FOUNDATION FOR THE LATER SUCCESS IN LIFE. READ THE LIVES OF THE GREAT MEN OF THE COUNTRY. THEY TAKE PRIDE IN RECALLING THEIR EARLY RELIGIOUS TRAINING—THE FINE IDEAS THAT WERE INCUCLATED WHEN THEY WERE YOUNG. SURELY THEY PUT TO SHAME SOME OF THE SCOFFERS AT RELIGION AMONG THE FLIPPANT YOUTHS OF THIS MATERIAL AGE. YOU CAN COUNT ON YOUR FINGERS THE NUMBER OF SUCCESSFUL MEN WHO DO NOT GO TO CHURCH.

The plea of some who have fallen away from the church is that they are TOO BUSY to attend church. Yet men whose time is WORTH \$100 OR MORE AN HOUR do not begrudge an hour or more for God on the Sabbath.

No man is too busy to attend church. If he is successful he should GO TO CHURCH to thank God for his success. If he is struggling he should ask God's help.

GO TO CHURCH NEXT SUNDAY.

TO WHOM IT MAY CONCERN:

This, August 31st, 1918, I, G. B. Moore, Sr., retire from the active management of the Moore Supply Co., on account of failing health.

I am thankful for patronage and support of the people of Albany and vicinity. Twenty-nine years ago this date, I came to Alabama—“Here We Rest.” But through hard work and strictly minding my own business I am now financially able to take my rest.

Respectfully, G. B. MOORE, Sr.

Commencing Sept. 2, 1918, the management of the Moore Supply Co., will be in the hands of W. J. Moore, who will endeavor to maintain the prestige that the Moore Supply Co., has held in the past, financial resources unimpaired. Hours of business will be from 6:30 a. m. to 6 p. m., except Saturdays and L. & N. pay days.

JAIL BIRDS REFUSE TO BE
CLASSED AS SLACKERS

(International News Service)
New York, Sept. 13.—Two hundred suspected slackers, caught in the greatest man hunt in the history of Gotham, rolled, tossed, groaned and cursed during the first night of their incarceration in the Tombs. They also aroused the patriotic wrath of other prisoners, such as burglars and felons, drunks and dope fiends.

"Can you beat it?" whined one old-timer up for cracking a safe. "How do them guys get that way? Take it from me, I don't want to be mixed up with that slacker bunch."

And then, as though drawing the final line of classification, the old-timer shouted to a husky "conscientious objector."

"They ain't no cooties in here, bo. If yuh can't face dese bars and the music, how yuh goin' to face the Huns?"

Personals and social items must be phoned to 682 before twelve o'clock, for afternoon publication.

A PATRIOTIC GATHERING.

The gathering of the community last evening for a patriotic sing at the close of a busy registration day, brought hearts close together, as hands were stretched across the seas to those dear boys who are singing over there. Seldom has any movement received such immediate and widespread acceptance as the Liberty sing propaganda.

The mere suggestion of men and women gathering to sing the songs of the trenches and of home, thrown out in any way, crystallizes immediately into action. And with the active and efficient Miss Bassett at its head it is literally true that "no sooner said than done." We believe it is now in its infancy and agree with Mayor E. C. Payne who announced from the truck last night that this branch is the best in the National Council of Defense for actual co-operation that was most noticeable when the occupants of the auto alighted and stood, the men uncovered, when the "Star Spangled Banner" was sung.

Mrs. Monroe Hardage and son, Lewie, have returned from Chattanooga, Lieut. Hardage continuing to Fort Worth where he has been retained for a short time as instructor in the A. S. S. C., U. S. A.

Mrs. Jno. D. Wyker and Mrs. Walter E. Todd went to Birmingham this morning to attend the convention looking forward to the Fourth Liberty Loan Drive.

Mrs. Tim Hudmon is in Birmingham today.

Mr. and Mrs. J. B. Cassells have recovered from a severe attack of malarial rash.

Mrs. R. M. McGlathery will go to Birmingham next week to meet her mother, Mrs. Crosbie, who is enroute from Washington to Hartselle.

Miss W. L. Tipton has returned from an extended visit to Tipton, Tenn.

MISS WILLIAMS APPEARS
IN RECITAL TONIGHT.

Miss Lillian Williams, of Mississippi, musical instructor in the Decatur public schools, will appear in recital this evening at 8 o'clock at the auditorium of the Decatur High School, giving a varied program of vocal and instrumental numbers and readings.

The public is invited to attend.

GAMBLE-HERRON.

Mr. J. B. Herron of Decatur and Mrs. Ada S. Gamble of Albany were united in marriage, on Thursday, Sept. 12, at 3 p. m., at the office of the inferior court of Decatur.

Mr. and Mrs. L. E. White of Sheffield, who were married there Monday, visited his mother, Mrs. E. D. White, on Canal Street, enroute to New Orleans and other southern points.

Mrs. Nell Sherrill of Hartselle visited Albany friends Thursday.

Mrs. W. G. Pride has received a cable announcing the safe arrival in France of her son, Garner.

Mrs. George Frahn and son, Geo. Jr., left Saturday for an extended visit to relatives in Ohio.

Mr. and Mrs. Lewis Borton have taken rooms in Decatur.

Miss Johnson of Florence, who is to be one of the Albany school faculty for 1918-19 is for the present making her home with Mr. and Mrs. H. N. Binford.

Miss Maggie Simpson continues ill at her home in West Albany.

Mrs. W. R. Simpson was the guest of relatives here on yesterday.

No Worms in a Healthy Child
All children troubled with worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S TASTELESS CHILL TONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and act as a General Strengthening Tonic to the whole system. Nature will then throw off or dispel the worms, and the child will be in perfect health. Pleasant to take. 60c per bottle.

PERSONALS

W. A. Hill and Elmer Lloyd, local Camp Wheeler for the past ten months, will sail within a few days for information received here.

C. C. Robertson is in Birmingham today on business.

J. C. Holesapple was called to Bell Buckle, Tenn., today by the death of a relative.

FALSE TEETH FALL OUT
AND TRAFFIC IS HELD UP

(International News Service)
Oshkosh, Wis., Sept. 13.—When a passenger on the interurban line opened his mouth too wide and his false teeth fell out and lodged behind some steam pipes it was necessary to transfer the passengers to another car and rip out the pipes of the former one in order to recover the missing molar.

AMERICANS ADVANCE TEN MILES

(Continued from page 2.)
the front and the gunners fired them as quickly as they could pull the lanyards. The reply of the Germans was weak.

MORE THAN 100 TANKS WERE USED

(International News Service)
London, Sept. 13.—More than 100 tanks took part in the American drive against the St. Mihiel salient. The tanks and troops advanced under cover of a dense smoke screen, while the French and Americans bombarded the enemy from a ridge running the entire length of the American lines.

PERSHING AND BAKER WATCH THE BATTLE
With the American Army on the Lorraine Front, Sept. 12.—(Night.)—Away out at an advanced observation post Gen. Pershing and Newton C. Baker today watched the Americans smash their way to victory on the battle front.

Gen. Pershing and Secretary Baker took up their stations in the muddy rain-lashed post of observation before the infantry went over the top in the cold wet dawn. The Americans, supported by a great fleet of tanks, went forward with an irresistible rush and three lines of German entrenchments were captured in a single bound. One hundred yards of ground was covered in four minutes.

Pressing forward west of the Moselle river toward Thiaucourt and eastward of Tresauvaux and Verdun, the Americans have pinched in the German salient at its apex on both flanks. All along the hillside for miles the American guns threw out a continuous stream of fire and sputtering flame and the thundering roar of the cannon was deafening as the infantry went forward.

FRIDAY, THE THIRTEENTH, UNLUCKY FOR HUNS

(International News Service)
Washington, Sept. 13.—Friday, the thirteenth, and Gen. Pershing's fifty-eighth birthday, proved a happy commemoration for the United States today. Reports from France indicated that the big push of the American first army continued between the Meuse and the Moselle rivers. The Germans are reported to be trying vainly to stem the advance, meanwhile rushing up reinforcements from other parts of the line. All American objectives have been attained to date and in every instance the time schedule laid down by Gen. Pershing has been exceeded. The situation is most excellent, according to all of the reports reaching Washington.

The American offensive has distracted attention from the plea of the German emperor to the munition workers at Essen, but both military and statesmen declared that this was one of the most significant happenings of the war to date. They believe that the manner in which the emperor has been lauding his chief military officers and laborers has great significance.

Wise People Are Buying Winter Clothes Now

and OLSHINE Is Prepared to Show You How to Save On

Styles That Fascinate

—Qualities That Satisfy!

Let no woman in all the Twin Cities err in supposing, for a fraction of a minute, that she can do quite as well elsewhere as at Olshine's. She can not.

The first few moments spent here impresses one with the fact that Olshine has planned to meet every style taste—and to please. Careful comparison simply serves to emphasize.

The name Olshine on ready-to-wear is a hall-mark; the name Olshine on ready-to-wear adds to value without adding to price. Women take pride in saying "It came from Olshine's." That simple statement carries with it the idea that the garment is not only what it ought to be in quality but is the very height of fashion.

Lieut. Almon is Informal Speaker at Liberty Sing

Lieut. Curtis Almon, 304th Field Artillery, was an informal speaker last night when the Liberty chorus gave a patriotic demonstration on Second Avenue, Albany, before a large crowd of enthusiastic, war-determined people. The meeting came just on the close of the "18 to 45 years" registration, of all American men, which from all accounts was a hundred per cent affair so far as the Twin Cities are concerned. Lieut. Almon said that since his landing in this country, in all the large cities such as Boston, New York and Washington—he had witnessed a strong and determined spirit on the part of the civilian population to stand solidly behind the army—but that considering the size of his home community, that at no place since he left France had he witnessed such great enthusiasm, and such loyal patriotism as was manifested last night. He spoke briefly of the spirit of the army and said that none of the glowing accounts of the valor of the soldiers were adequate. Lieut. Almon is the son of Mr. and Mrs. D. C. Almon and was reared in Albany. He has been sent home from the front for the purpose of training new units of field artillery for foreign service, and expects to be in the line again in a short time.

Miss Bassett as director succeeded admirably in leading the large crowd into the spirit and purpose of the songs. The stirring readings by Miss Fannie Johnson were greatly enjoyed by her hearers and they were not backward in showing appreciation.

Mayor Payne made a ten strike when he praised the work of the community singers. The audience approved of his every word and when he said the present chorus was ready to challenge any other one "either in or out of the state of Alabama" there was a round of applause. Such demonstrations, as the one of last night will be given by the Liberty chorus at least once a week.

Soldier Boy Sends "Stars and Stripes"

S. L. McJilton of the engineer corps of the U. S. A., now in France and son of R. S. McJilton, has mailed home a copy of Stars and Stripes, published in France. The paper is an 8-page 7 column publication, the make-up distinctly American, and carries news of our soldiers and sailors, and war activities.

HOOSIER BARBERS "GO UP." (International News Service) Elkhart, Ind., Sept. 13.—No more will Mr. General Public stroll into Elkhart barber shops, divest himself of hat and coat, climb into the chair, get his shave, hair cut, massage and "tonic" and expect to get away with change enough left out a dollar bill to purchase a two-fer. Barbers in Elkhart have revised their scale of prices, and as a result hair cuts will be fifty cents and shaves twenty cents, with massages, shampoos and so forth up in proportion.

AMUSEMENTS

THE WHIRLPOOL," AT MASONIC SATURDAY

Alice Brady follows her sensational success in the "Ordeal of Rosetta," recently seen here, with her latest Select Picture, "The Whirlpool," which is to be the feature attraction at the Masonic Theatre on Saturday. The original novel is from the pen of Victoria Morton, the scenario is by Eve Unsell, and the direction by Alan Crosland.

"The Whirlpool" is a tale of New York, revealing the sporting life of a Tenderloin-gambling house of the city but also portraying the nobility and high-mindedness of its true leaders. As Bella Cavello, the gambler's stepdaughter who wins out in the end, Alice Brady maintains a sincere high note in a most sympathetic characterization.

At the gambling house of her stepfather, Ferris, Bella's role is to lead the men on to play; her semblance of cheerfulness serves to cover the revolt of her soul at the task. Ferris is very good to her, and when the death of her mother had caused Bella to suffer a breakdown, he had called in the great Dr. Comyns to cure her.

One of Ferris' patrons is Richard Brettner, who tries to win Bella, although she cares nothing for him, by giving her expensive presents purchased with stolen funds; his thefts are discovered and he is found guilty in court. Judge Reversion, however, the youngest and kindest judge on the bench, considers Brettner's youth and previous good record and suspends sentence.

Later, Brettner is suspected of a murder of which he is really innocent; Bella pities him, and in order to help him, determines to ascertain the guilty man.

Dr. Comyns sends to his sanatorium in the south, Judge Reversion and Arthur Hallam, the neurasthenic

nephew of the murdered man; Bella suspects the latter, who is the actual murderer, and follows him to the sanatorium where she registers as Isabel Corbin. Both men woo her but she accepts Reversion's proposal. After their marriage, she keeps on

her intimacy with Hallam, and finally traps him into full confession. The judge, who had been suspicious of her friendship with Hallam, overhears. He arrests the confessed murderer although Comyns has told Reversion of Bella's former activity

as the decoy at her stepfather's gambling house, the judge now appreciates her fine spirit of justice and, with his love greater than ever, takes her in his arms, henceforth their paths in life shall lie in the same direction.

From Selected Wheat

A big wheat crop is now assured—but conservation is still necessary. There isn't enough wheat to waste, but there is enough to permit millers to select their grade of wheat. Before the war we always bought the best wheat and

paid a fancy price to get it. The new bumper crop again makes this possible. We are now milling

Valier's Picnic Flour (Self-Rising) Valier's Walk-Over Flour

Both pure white—nothing but wheat

from the pick of the crop—heavy, matured, ripened grain, bought at a premium. It is ground according to Government specifications, but under Valier milling methods—the methods that put Valier's Dainty Flour at the top of the housewife's list. Slow, careful grinding; patient sifting through silk; modern machinery; expert supervision; sanitary surroundings and handling—all of these go to turning the best wheat into the best white flour—Valier's Flour.

The price of Valier's Flour is fixed by the Government. It is a little higher per sack than ordinary flour, but makes more baking, and better baking—lighter, whiter and finer-flavored biscuits, cake, etc. Ask your grocer—today.

Valier's Flour is sold in cotton sacks of unusual quality, that may be washed and put to a hundred household uses.

Let's win the war—then you can buy Valier's Dainty—the flour of flours.
